ABSTRACT

This supplement classifies approximately 675 titles including only new acquisitions from August 1973 to August 1974. It is suggested that it be used in conjunction with the 1973 original edition. All material is classified according to various divisions as follows: language arts, social studies, mathematics, science, literature, dictionaries, encyclopedias, music, vocational and adult basic education, interdisciplinary materials, miscellaneous materials, arts and crafts, and professional reference materials. Materials included in these divisions appear in various languages such as English, Spanish, French, Italian, Japanese and Chinese. Within each division materials are grouped according to the following subdivisions: multi-media materials, texts, teaching aids (visual aids, film strips, charts, posters, games and maniuplatives), aduio-visuals (records, films, tapes), and teacher reference--which does not include teachers' guides. In certain instances, entries are made in more than one division or subdivision. An alphabetical list of publishers and distributors of the materials listed in the document is provided. (Author/AM)

Documents acquired by ERIC include many informal unpublished materials not available from other sources. ERIC makes every effort to obtain the best copy available. Nevertheless, items of marginal reproducibility are often encountered and this affects the quality of the microfiche and hardcopy reproductions ERIC makes available via the ERIC Document Reproduction Service (EDRS). EDRS is not responsible for the quality of the original document. Reproductions supplied by EDRS are the best that can be made from the original.

ACKNOWLEDGEMENTS

Throughout this past year, every member of the B.E.S.C. staff has been involved, directly or indirectly, in the constant quest of identifying and acquiring pertinent additions to the BESC material collection on bilingual-bicultural education. It is on account of their behind-the-scenes contributions that this publication became possible.

The burden of sorting and classifying the materials to be listed in this publication, as well as preparing the final manuscript and layout, was completed primarily by the cooperative efforts of Yolanda R. López, Susana Bustamante, Mónica Bustamante, Mireya Risty, and Josephine Mallett.

INTRODUCTION

In August 1973, the Bilingual Education Service Center published Curriculum Materials for Bilingual Programs, compiled by Helen Alvarado. This publication listed all materials which up to date had been identified and acquired by the BESC Resource Center. It included approximately 3400 titles of both commercial and non-commercial materials in Spanish and English pertinent to bilingual bicultural education.

Since that date, the staff of the Bilingual Education Service Center has identified a substantial number of materials to supplement and update the existing BESC collection, not only in Spanish and English but increasingly in French, Italian, Japanese and Chinese.

This supplement which classifies approximately 675 titles includes only the new acquisitions made by the BESC Resource Center during the period of August 1973 to August 1974. It was developed to be used primarily in conjunction with the 1973 original edition of Curriculum Materials for Bilingual Programs.

The 1973 edition is now out of print. However, by August 1975, the Bilingual Education Service Center will publish a revised and expanded edition which will include the complete collection at the BESC Resource Center as of June 1975. In order for this new edition to be as accurate and comprehensive as possible, we would greatly appreciate your suggestions concerning pertinent materials which we have missed in either the original publication or this Supplement.

HOW TO USE THIS SUPPLEMENT

All material has been classified according to the divisions listed in the table of contents. Within each division, however, the material has been grouped according to the following subdivisions:

Multimedia materials
Texts
Teaching Aides (i.e. visual aides, filmstrips, charts, posters, games, and manipulatives)
Audiovisuals (i.e, records, films, tapes)
Teacher reference (This does not include teacher guides)

Please note that in certain instances entries have been made in more than one division or subdivision.

An alphabetical list of publishers and distributors of the materials in this supplement is provided to facilitate ordering of materials.

As in Curriculum Materials, titles (or in a few cases representative samples) identified in this Supplement are housed at the Resource Center of the Bilingual Education Service Center and are available for examination. We invite all bilingual program personnel, as well as individuals interested in the education of students from a variety of linguistic and cultural backgrounds, to visit our Center and take advantage of the resources and services offered.
